

COOL POWER

IMAGE ARCH LED HANDRAIL

Imagerail incorporates within the architectural features and structures of a project making it possible for architects and engineers to design and illuminate areas without using additional light sources for egress and accent lighting with the benefit of efficiently reducing lighting costs at the same time. **Our Light Pods** are highly durable, able to withstand cold environments, contain no mercury, and with our **"Cool Power"** cool to the touch-making them safe choices for areas where people come into contact with Handrail lighting. Our Handrail has flexible power feeds so normal and emergency feeds can be remotely installed in a building electrical or maintenance room along with our controls up to three hundred feet away reducing unnecessary and unsightly pull boxes. **Our Handrail combines our various metal options with lighting for safety and security into one functional element and we are ADA compliant for interior and exterior applications. This product is built and manufactured in the USA and falls under the "Buy American Act".**

EXCLUSIVE DESIGN ASSISTANCE

COOL POWER

Image Arch Lighting can provide Photometric Modeling to insure you see the visual result and get the light where you need it.

BEAM SPREAD OPTIONS

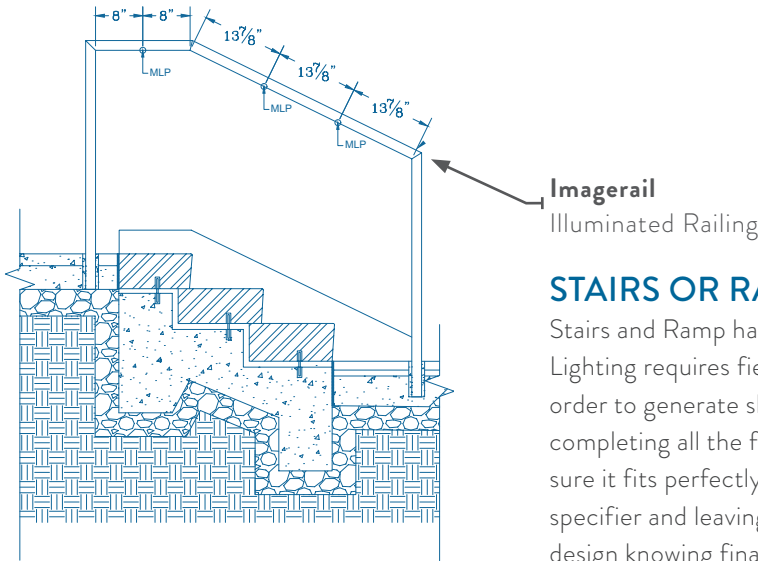

Asymmetric

Symmetric

STAIRS OR RAMPS

Stairs and Ramp handrail wall returns may be specified with a Image Arch Lighting requires field verified “horizontal” and “diagonal” dimensions in order to generate shop drawings. Image takes all the risk out of measuring by completing all the field dimensions prior to fabrication in of your order to make sure it fits perfectly for the installer and taking out the complexity for the specifier and leaving all the risk of final measurements to us with the handrail design knowing final installation will be completed right the first time.

HOW TO ORDER:

1 SERIES	MHR
2 RAIL METAL OPTIONS	SSP Stainless Steel 304 Polished SSB Stainless Steel 304 Brushed AAC Aluminum Anodized Clear AAB Aluminum Anodized Brushed AP Aluminum Painted (Powder Coated) BAP Brass Anodized Polished BRAP Bronze Anodized Polished CAP Copper Anodized Polished CAB Copper Anodized Brushed SP Steel Painted (Powder Coated)
3 SIZE	1.5 1.50" OD 1.66 1.66" OD 1.9 1.90" OD 1.5S 1.50" OD (Square)
4 LENGTH	R2 2 foot length R3 3 foot length R4 4 foot length R5 5 foot length or Total in Feet and Inches
5 SHAPE	R Round S Square

6 APPLICATION	P Post Mounted W Wall Mounted
7 LIGHT APPEARANCE	30 30 Degrees 60 60 Degrees
8 CRI	8 80 85 85
9 MPODS LIGHT COLOR	27 2700 K 30 3000 K 35 3500 K 40 4000 K A Amber
10 VOLTAGE	127 120/277V 34 347V
11 CONTROL	DALI 0-10V DMX (Dimming only No Individual POD Address)

Notes:

1. All Handrails and LED Lights are built in conformance to ANSI Standards.
2. Each project specified will be verified by completed architectural drawings and priced according to those documents.
3. IAL is responsible for final Field measurements prior to fabrication so Customer is guaranteed the right fit as long as no changes occur after measurements

LIGHTING SOLUTIONS

Image Arch Lighting is dedicated to providing lighting solutions with our LED Handrail system in order to help you earn the maximum LEED® points. Regular and high output LED Lighting is available. Please consult factory for photometrics and IES files or any help for your specific layouts. Below are typical CADD drawings generated by the factory. Remember all manufacturing will not proceed until field measurements can be verified.

Image Arch Lighting's LED Energy efficient lighting products are Energy Star® Rated. Low power consumption of LED's significantly reduces energy consumption. The reduced heat generation of LED's contributes to a reduction of climate control loads. Ability to integrate with building automation systems to further energy-use tracking and savings.
